

## A' DÈANAMH AGALLAMH CONSTRUCTING AN INTERVIEW

You have entered a home movie competition. You have to interview and make profiles of family members and friends. Prepare the questions you are going to ask. You should find out the following, where appropriate:

- where they were born and brought up
- where they are staying now
- whether they are married
- if so, when and where they met, and whether they have children
- whether they have a brother or sister
- when they started doing something – for example, working, driving, going to college
- when they learnt something – for example, Gaelic, swimming, French
- when they left some place – for example, school, Dundee, home

When you have prepared your questions, carry out the interviews in Gaelic. Finally, compare your interviews with those on the previous pages.
